

Improving children's lives one book at a time

The Book Bus aims to improve child literacy rates in Africa, Asia and South America by providing children with books and the inspiration to read them. The Book Bus is currently working to improve literacy rates at a community level in Zambia, Malawi and Ecuador. Our library work, book donations and assisted reading programmes are helping strengthen the reading culture in schools and communities resulting in a more confident reading population that is better equipped for the future.

As a UK charity The Book Bus are starting to expand our activities within the UK, this involves working in school classrooms, organising a UK Road show, researching current UK curriculums and potential project collaborators. If you are interested in literacy, education and or storytelling and would be available to volunteer with us in developing this next stage of The Book Bus UK do get in contact. Whether this would be contacting schools for our Road Show, helping create lesson plans or researching global folklore there are a wide range of activities to get involved with.

If you are interested in this volunteer role or would like more information please contact victoria@thebookbus.org or (0)2080 999 280

Many thanks!

The Book Bus Team
